

مدارس بكالوريا الرواد Pioneers Baccalaureate Schools

Building the future leaders of Palestine

بناء قادة المستقبل لفلسطين

ABOUT THE SCHOOL

Pioneers Baccalaureate School is a private, non-profit, bilingual (Arabic/English) school located in Nablus, Palestine. We currently serve over 450 students grades 1-10 and add a grade level each year. Our students are preparing to take the SAT in high school.

OUR MISSION

Pioneers was founded to provide a level of education unavailable in Nablus. We offer a rigorous academic curriculum and instill in our students strong values of service and citizenship that prepare them to become future leaders, at home and abroad.

WHAT WE TEACH

The Pioneers curriculum, both English and Arabic, is designed to foster inquisitive, sensitive, well-rounded learners who think critically about the world around them and advocate for themselves and others.

Lower Grades (1-6)

- 2-3 hours/day of English immersion taught by native speakers
- Palestinian National Curriculum taught in Arabic

Upper Grades (7-10)

- 2-3 hours/day of English immersion taught by native speakers
- Math and Science taught exclusively in English starting in Grade 7, and History and Literature starting in Grade 9, in preparation for the SAT I and SAT II Subject Tests
- Palestinian National Curriculum

In addition to academics, students take classes in art and physical education and choose from a variety of extracurriculars including soccer, basketball, gymnastics, chess, drama, and painting.

GET INVOLVED!

Pioneers has a strong, growing community of international teachers. Each year, we hire native English speakers to teach a wide range of subjects, including **classroom English** (grades 1-9), **English Literature, History, Math, Biology, Chemistry, Physics, and Art.**

Teachers come from many different countries, including the U.S., Canada, U.K., Australia, New Zealand, and South Africa. Some have backgrounds or experience in education, while others come with no formal training. We provide intensive training prior to the school year to prepare teachers for success in the unique environment of our school.

Our teachers stretch themselves to their limits, learn more than their students, eat until they can't eat any more, find second families, travel, make lifelong friends, learn Arabic, and change lives.
